They shall not grow old, as we who are left grow old; Age shall not weary them, nor the years condemn. At the going down of the sun and in the morning, we will remember them.

Dear Parents and carers,

Thank you to all the parents and carers who attended the recent parent consultations; the evaluations were very positive. Our firework display was once again a huge success making £600 profit. I would like to thank the PA and everyone who helped on the night, for their hard work.

Thank you to the parents who have already made contributions to the School Building Fund and a huge thank you to those who are paying extra. Every Thursday after assembly I carry out a short guided tour of the new Learning resource Centre. Your contributions towards the building fund, enable the school to apply for funding for projects such as this which will enhance the children's learning. The request is for £10 per term or £30 per year, per family. If you would like to pay more, the children would be very grateful. We are experiencing a temporary glitch with Scopay, therefore you can place your contribution in a sealed envelope with your child's name, class, amount and Building Fund on the front of the envelope. This should be handed to the school office; a receipt will be sent to you.

Rehearsals are now underway for one of the highlights of the year, the Junior Carol Concert at SSPP Church on Wednesday 13th December at 6.30pm; it is expected that all the children in KS2 attend on the night.

Thank you for your continued support.

God Bless.

S Johnson

Anti-bullying Week

To launch anti-bullying week pupils wore odd socks to school to show how we are all different and unique. The Odd Socks day was a fun opportunity for pupils to show their express their individuality. The newly elected School Council also led an assembly to spread the anti-bullying message.

STEM Week

Pupils enjoyed a fun-packed week of activities during our annual Science, Technology and Engineering Week. Throughout the week, each class took part in a carousel of activities in the hall including building balloon rockets, testing the buoyancy of objects, making tangrams, solving logical problems and whipping up some tasty delights in food technology. Year 5 pupils were treated to a talk from a STEM Ambassador Dr Eric Saunderson who inspired them who gave an inspirational speech about STEM and talked to them about the range of STEM careers open to them.
